

Janarth Punniyamoorthy

Aspiring React Developer!

Title + experience

Professional Experience

Hive (TicketLabs) - March 2020 - Present

- Implemented linting system
- Created editor to build automated SMS within Journey builder
- Optimized uploading large files to AWS in our task pipeline

DOZR - January 2019 - April 2019

- Improved auto-complete search results and latency by indexing MongoDB with edge n-gram Elastic Search

- Built a billing microservice that will charge clients when their recurring payment is due with CurrencyPay's API
- Facilitated feature selection and implementation by coordinating directly with CurrencyPay's development team while their documentation was in progress

Contact

Wizeline - May 2017 - Aug 2017

Education

Debugged issue with automatic deployment to staging after a pull request is merged

Skills

Implemented CRUD operations as required by the Frontend team using Flask web framework

- Collaborated to create internal question forum for employees to express their concerns to upper management anonymously with Express web framework

Hobbies
